

# Dolocal Natur

**FAST ACTION. Calcium-magnesium amendment to correct soil pH and enhance crop development.**

**Dolocal Natur** is a natural mineral product as a result of the calcination of the Dolomite mineral, consequently, **Dolocal Natur** is a product with a higher degree of pH neutralization and with high percentages of Ca and Mg, further increasing the positive effects on crops . Maximum solubility thanks to the calcination.

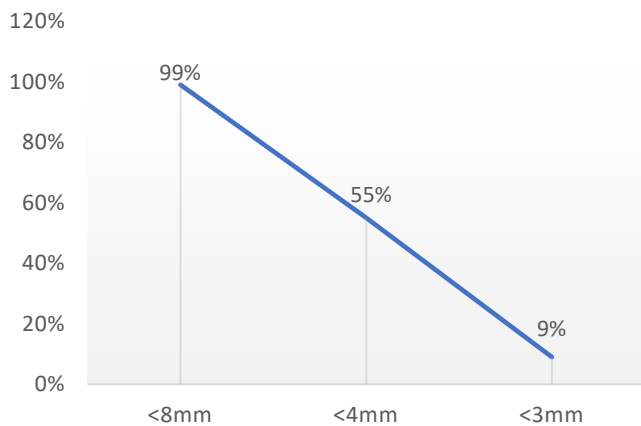

## Granulometry 0 - 3

### CHEMICAL ANALYSIS

CHEMICAL COMPOSITION	%
CaO	55 – 58
MgO	36 – 38
Al <sub>2</sub> O <sub>3</sub>	0,22
SiO <sub>2</sub>	0,07
Fe <sub>2</sub> O <sub>3</sub>	0,16
OTROS	0,07

## Granulometry 3 -8

P.P.C < 10 %

### \* SOLUBILITY

<b>CALCIUM TOTAL (CaO)</b>	57 %
<b>MAGNESIUM TOTAL (MgO)</b>	37,20 %
<b>**MAGNESIUM</b>	23 %

\* The solubility of a fertilizer is the maximum amount of fertilizer that can be completely dissolved in a given volume of water.

\*\* Magnesium available for the plant at pH 5.

**Dolocal Natur** allows faster action on the pH of acidic soils regenerating and improving them in less time. Its greater power decreases the necessary dose of application. The relationship between effectiveness and cost is more economical.

Recommended dose

Correction: 500 – 800 kg/ha

Maintenance: 300 - 500 kg/ha
